

# Year 6 SATS Revision

Dear Parents/Guardians,

During the week 13<sup>th</sup>-17<sup>th</sup> May, your child will be taking their Year Six SATS papers. Part of this includes completing three maths papers:

- Paper 1- Arithmetic
- Paper 2- Reasoning
- Paper 3- Reasoning

Year Six have worked incredibly hard this year. As we approach the final weeks of preparation, we are fortunately able to offer the following opportunities to develop their learning further so that they can achieve their best.

LBQ (Learning by Questions) will be offered to children to access online at home, in order to develop key skills and boost confidence. This is a popular way for children to engage with their learning at home and at school.

Children will be able to access their own 'Springboard' from the LBQ website. This is individually tailored to their needs and understanding. Feedback and support is given instantly and gives children the opportunity to recap key areas of their maths learning.

I can answer a range of questions from the KS2 mathematics curriculum.

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

Additionally, a daily task will also be offered. The task set will be something that has been previously taught in school that has been identified as a focus area.

Once logged in, users will have access to 30 questions, which are designed to support understanding of basic skills whilst extending children's knowledge through challenging reasoning and problem solving questions.

Furthermore, each Tuesday a learning club takes place after school (3:15-4:15). Children are offered additional teacher support to develop skills and confidence. It has had a fantastic impact on the children who currently attend and we would highly encourage as many children as possible to join.

Thank you for your support,  
Miss Park and Mr Drake.
